Ryan,

Chapter 28 of City Code charges the City of Orlando with providing Solid Waste service to all commercial properties within Orlando City Limits. The City crews provide exclusive commercial sold waste collection service in front load containers. In addition, the City and 26 private franchise firms provide solid waste roll off service. The City maintains contracts and interlocal agreements to ensure disposal capacity for City commercial properties. The City has the capacity and resources to provide solid waste service to all planned commercial growth for the next 25 years.

If you have any questions, feel free to contact me.

Mike Carroll

Mr. Carroll,

I'm sure you are aware of the Development of Regional Impact (DRI) currently in the works for GOAA's East Airfield Development. We've been asked to assist in answering the solid waste question of the DRI package. Can you confirm that the City of Orlando currently provides solid waste service to GOAA at Orlando International Airport? If so, I'll need to get a letter from the City indicating that they have capacity to serve the development with Solid Waste services; can you provide me the City's contact person for the solid waste at GOAA so I can get the required letter initiated with them? I greatly appreciate your assistance.

Best Regards,

Ryan Renardo, E.I.
